Opatija Riviera - Croatia

Welcome to the Hotel Ikador, a place of exclusive privacy and timeless elegance.

The Hotel Ikador is situated on the iconic coast of the Opatija Riviera in the Northern Adriatic Sea, a place of remarkable history and heritage. It was one of the beloved official healing resorts of the European Aristocracy from the turn of the 19th century. Emperors, famous composers and royals found the Opatija Riviera to be a place of endless inspiration and majestic sceneries. This tremendous heritage is shown today in extraordinary architecture and majestic landscapes spread out through the entire Riviera coast. The inspiration was drawn from the famous musical composers that use to visit the Riviera – Puccini, Lehar, Kalman and Mahler. This musical theme is seen in artworks and illustrations all throughout Ikador, and the very name Ikador is made of words Ika (the town) and D'or (golden and musical octave Do), meaning Ika of gold and music.

The exclusive privacy of Ikador's luscious boutique resort offers a unique holiday experience, featuring 9 spacious and elegant rooms and 7 luxurious suites, sophisticated contemporary design and an array of state-of-the-art facilities. Special emphasis is made on bespoke personalised service, provided by the numerous staff members devoted to the finest of details. Hotel's Maestro, the guest experience manager named after musical conductor, will know how to orchestrate extraordinary experiences.

The fine dining Nobilion Restaurant is a place of indulgence devoted to Mediterranean cuisine, based on top local and indigenous foods and top-quality wines. Hotel's Ikalia Spa is an ideal sanctuary for mind, body and spirit, offering luxurious signature treatments featuring healing crystal bowls sound therapies, programmes featuring fragrant amber, 24k gold and mysterious spring waters of Ika. Hotel Ikador also offers an outdoor swimming pool with heated sea water, a private deck-beach, complimentary garage for hotel guests, a mini golf course, boules court and the possibility of arranging private tailor-made experience tours and sightseeing.
The pride of Ikador is certainly the exclusive partnership with the prestigious Italian Riva Yacht brand, making it the only hotel in the world proudly owning Riva Lounge and Riva Privée areas, our pool bar and private Chef's table, with exquisite Riva Yacht design and furnishings. The pinnacle of this unique partnership is certainly the majestic Riva Aquariva Super speedboat, for our guests to experience and explore the Kvarner archipelago, reminiscing the spirit of La Dolce Vita lifestyle.

Discovering the uncommon

Opatija Riviera
The Rivera has been a long-time favourite of the Habsburgs, and their influence unveils itself in the many villas dating from the turn of the 20th century. Their architecture still conveys the spirit of the times that made Opatija the first health resort for European aristocracy. This unique heritage is equally shared by the royal Opatija as well as the pictoresque Volosko, Lovran and Mošćenička Draga.

Along the Lungomare
The most famous, 12 km long seaside promenade in the country, the Lungomare was built on the turn of the 20th century. It is not only a walk down the Riviera's heritage lane offering breathtaking sights, but also the most beautiful scenery for a casual walk or a morning jogging session. Along this coastal promenade you will find lots of small beaches and rocks, perfect for a good body stretch, private yoga sessions or morning swim!

Kvarner hilltops & hinterland
Discover the surrounding medieval towns Moscenice, Veprinac, Kastav, Trsat and many more. Explore the town squares, the narrow streets and the walls holding these forts for centuries on end. Enjoy the breathtaking views of the Opatija Riviera and the entire Kvarner gulf.

Kvarner bay islands
The dream of a thousand islands starts here, at the Kvarner bay. This unique neckless of pearls adorns the entire Croatian coast. From Opatija to Dubrovnik, it writes an uninterrupted story of Mediterranean lifestyle. The two biggest islands of this area, Krk and Cres, are not only visible from the rooms and suites of Ikador, but they can be easily reached with our Riva Aquariva speedboat or our wooden boat. Walled medieval

communities, and stony villages, trending wines and authentic food can all be found on these stunning examples of nature, bathed by the crystalline sea.

Mountain escapes
Just an hour's drive away from the cost of Opatija Riviera lays the mountainous inland of Učka, Gorski Kotar and Risnjak. Sparsely populated, it is a true sanctuary for wildlife and untouched nature. For all those who long for lush greenery and cooler climate this area offers a wonderful escape from the busyness of the coast and the summer heat. Nature parks, walking trails, natural lakes, cool mountain springs and even cooler caves. The mountain area unvails the extraordinary nature's diversity of the region. The stunning views extending from the mountain tops offer time for reflection and meditation, and those curvey paths and clifs will tempt any adventure seeking visitor!

Istria - terra magica
An olive oil region without compare, a home to more than a hundred wine producers, its forests teeming with truffles and its cities rich with history. Istria rightfully bares the name Terra magica. Vineyards and olive groves extend into the horizon while artisans, farmers, winemakers and artist invite you into their homes to taste the seductive Istrian lifestyle.

The gastronomy

Gastronical heritage
The Kvarner and Istria region offer one of a kind cultural, historical and gastronomic experience. An olive oil region without compare and a thriving community of wine makers offer products of worldwide recognition. Whether it be the famed Kvarner bay shrimps that have been enjoyed since the days of the Austrian Empire by aristocracy and fisherman alike, or Boškarin, a type of bovine native to Istria that offers unique sensations to the palate. To sweeten the whole meal perhaps some Lovran maroons, a particularly sweet type of chestnut that is used for dessert and honey production on the slopes of the Opatija Riviera. Local cheeses, honeys, figcakes, grappas - the palette is diverse as the regions themselves!

Hedonist's paradise
The region has always been famed for its many establishments, scattered across the Kvarner and Istria, creating a region of infinite culinary possibilities. Cared for by generations of families in small local „konobas"or housed in boutique hotels and villas, these true hedonist's retreats attract gourmets from afar and offer skilfully prepared meals always matching the growing expectations of the worlds gourmet community. Cooking mastery and meticulous preparation will leave no palate untouched. Drift from the Michelin stars restaurants to fine dining sanctuaries, from small bistros to „konobas", to simple street food. You will discover that you simply can't go wrong!

The region of vineyards, olive oil & truffles
Emperor Marcus Aurelius introduced grapes to Croatia and the passionate affair between man and vine not only continues but grows stronger. The vineyards and olive oil farms of Kvarner islands and the neighbouring region of Istria are perfect for wine and olive oil tasting tours, and the Istrian region hides something remarkable – the renowned truffles of Istra! Too delicate to cultivate, this underground dweller found its perfect hideout in the Istrian forests. And from there it found its way to our meals and our hearts. So much so that entire months are dedicated to its celebration. Nicknamed the diamond of the kitchen, to look for it is to go on a treasure hunt. A unique gastronomic experience that combines nature and culture and easily reached form the hotel – a remarkable experience just arround the corner!
